

Risk Management Alternatives at 1-877-847-0092 calls at least three times per week demanding payment on my son's account. They cannot discuss the account, but they are expecting me to bring his bills up to date. I have given them my 25 year old son's current address and home and cell phone numbers, but the company continues to demand payment from me. A "Becky" called today and told me I was lying to her about my son's whereabouts. Please help me to get this company to stop harassing me for extra payments for which I am not responsible.
